# Home Inventory Checklist

A room-by-room record of what you own, what it's worth and where the proof is.

## Why keep a home inventory?

Most of us couldn't list everything we own if we had to, and that's usually the moment we need to: after a break-in, a burst geyser, a storm or a fire. A home inventory is simply a record of what you have, what it's worth and where the proof is kept.

- Make an insurance claim quickly and confidently
- Make sure you're insured for the right amount
- Check whether something is still under warranty
- Plan a move, or sort out a loved one's estate

## Two ways to use it

### On screen

Open the PDF on your computer and type straight into it. In most PDF readers, your room totals and grand total add up for you. Save a copy when you're done.

### On paper

Print it, walk through your home with a pen and fill it in by hand. Keep a photo or scan of the finished pages somewhere safe, away from home.

**Start small.** Don't try to do the whole house in one go. Pick one room, give it ten minutes and fill in what you can. A room a week, and you're done in a couple of months.

## What to record for each item

For everyday items, a photo is enough. For anything valuable, or anything you'd struggle to replace, capture as much of this as you can.

### 1 Photos

One of the whole item and a close-up of the brand or label.

### 2 Make, model and serial number

Usually on a sticker at the back or underneath. Photograph it instead of typing it out.

### 3 Year bought and value

What it cost, or what it would cost to replace. An estimate is better than nothing.

### 4 Proof of purchase

A receipt, invoice, bank statement line or order confirmation email.

### 5 Warranty

When it ends, and where the warranty card or document is kept.

### 6 Where it is

Which room, cupboard or storage box.

**Quick tip:** before you start, walk through your home recording a slow video, opening cupboards and drawers as you go. In a few minutes you'll have a useful record, even before the detail is done.

## Your home at a glance

Your room totals appear here and add up to the value of everything you've recorded.

## Keep it safe and up to date

- ☐ **Store a copy away from home** in the cloud or with someone you trust. An inventory that burns with the house won't help.
- ☐ **Add new things as you buy them.** Photograph the receipt before it fades or gets lost.
- ☐ **Review it once a year.** Before storm season is a good reminder.
- ☐ **Compare it with your insurance.** Once you see the total, check with your insurer or broker that your cover is right.
- ☐ **Tell someone where it is,** so your household can find it if you can't.

## If something does go wrong

- 1 Stay safe first.** Only go back inside once it's safe to do so.
- 2 Photograph the damage** before you clean up or throw anything away.
- 3 Contact your insurer or broker** as soon as you can, and note the date, time and claim number.
- 4 Use this inventory** to list what was lost or damaged, with values and proof.

## Do it faster with Axario Home

**Save yourself the manual admin and keep permanent proof.** Try Axario Home for free. You can:

- Photograph each item and keep the receipt, warranty and manual with it
- Scan a receipt and have the item, price and date filled in for you
- Get a reminder before a warranty ends
- Share your inventory with your partner or family
- Find anything quickly for a claim, a repair or a move

This checklist is a general guide to help you organise your household records. It is not insurance, legal or financial advice. Please check your policy or speak to your insurer or broker about your cover. Totals add up automatically in most PDF readers, such as Adobe Acrobat Reader and Chrome; if yours doesn't, add them up by hand.
